

*Enjoy analysing specimens of different fossil groups?
Enjoy using high resolution analytical techniques?
Curious about fossil taxonomy and taphonomy?
Want to learn more?*

If your answer is yes, we are holding a 2-day-workshop for you on

Starting the identification process: Taxonomic and taphonomic issues

The aim of the workshop will be to bring together the young enthusiastic palaeo-taxonomist communities and create a new opportunity for cooperation. We can learn from each other and better understand the identification process of fossil remains and its taphonomic issues.

Date: 15-16th March, 2022 (Tuesday and Wednesday)

Timing: CEST 11:30, BST 10:30, IST 15:00, EDT 05:30

Virtual (through Zoom)

Registration is free

Keynote lectures: 30 minutes and 10 minutes for discussion (total 40 minutes).

Presentations: 10 minutes followed by 5 minutes for discussion (total 15 minutes).

Dear friends and colleagues of NECLIME,

The NECLIME team initiated this early career research (ECR) wing, and we are happy to announce our first NECLIME-ECR workshop. This is an opportunity for all the young researchers, who want to grow in the field of palaeobotany and beyond, to learn and teach, to raise their own work in the international arena. Come and take part at our meeting not only as a guest, but also by sharing your experience. To do this you just need to tell everyone how you have done your identifications, where from you have started and what challenges did you face. Anyone interested can present for 15 minutes (with discussion). In addition, there will be plenty of time for general and group discussions.

If you are interested, please fill in this Google Form by 01.02.2022

[\(https://forms.gle/xKSq467LDDKq1Xb98\).](https://forms.gle/xKSq467LDDKq1Xb98)

You will get feedback from us during a week and will be asked to submit the recorded presentation file until 20.02.2022.

NECLIME is an open international network of scientists working on Cenozoic climate evolution and related changes of continental ecosystems. We are encouraging young researchers to join the NECLIME-ECR group.

If you have any particular requirements, please get in touch and we will do our best to accommodate! Please email us on neclime.ecr@gmail.com

We look forward to e-seeing you in March 2022!

NECLIME-ECR Workshop Organisers:

Arindam Chakraborty (India), Astghik Papikyan (Armenia) and Gabriele Niccolini (Italy)
